Dear MacKenzie,

Spice it up Quick Tip:

Ask her to go for a drive tonight, and take her out to a lonely hill where you can sit close together and watch the sunset. Such moments are what most women long for in a relationship, and you will soon find her in a very romantic mood. Be just as intimate as the loneliness of the spot permits, and remember-sunsets are always followed by darkness, which will allow even more intimacy.

Extra: For added romance put a quick picnic basket together with fruit, cheese, crackers, and a sparkling cider. Have it ready in the trunk with a blanket to sit on or cuddle under for later!!

Yours+Mine for Him and Her
K-Y introduces two-tube lubricant for couples

"His excites, hers delights, together they ignite."

We are all asking ourselves the same question, What do they do?
It sounds fun but unless you know a thing or two about the active ingredients most will just have to buy it and see what happens.

But today you're in luck because the Love Zone staff has poured over the packaging and ingredients and we are going to spill the big secret with you.

Yours for him(blue bottle) lists the first ingredient as glycerin which makes it a warming lubricant. Mine for Her(purple) is a pleasure lubricant using menthol that is designed to stimulate blood flow and increase sensation. Together this should create a warm, tingly, cool, stimulating sensation that is sure to ignite passion in your love life!!!

We suggest adding a drop of silicone lubricant too which will add a long lasting smoothness to your lovemaking!!!

Now available at Love Zone.

Frequently Asked Questions:

Q: Are there any adult movies that have more of a story, and less close ups if you know what I mean? Sam, Everett

A: Yes. Several producers and production companies cater towards couples and women with storyline, beautiful locations, attractive people, and they are more tastefully directed. Candida royale is a female producer that was an adult filmstar but decided she didn't like the usual formula for a film so she created a line of movies that really cater towards the woman. Andrew Blake is a producer that creates storyline movies without dialogue. Blake's movies have music in the background, modelesque star's, exotic/European locations and have been described as artistic. A few production companies to check out include Vivid, Wicked, VCA. Look for the DvD cases that look like romance book covers rather than X-Rated movies. Love Zone has categorized our movies and we have designated a couples/storyline section that is easy to browse through. Top Titles: Pirates, Eyes of Desire, Night Trips, Island Fever Series, The Masseuse, The New Devil in Miss Jones.

Seniors having more Sex than ever

Studies are showing that Grandma and Grandpa are having more sex these days. In fact research shows that as an added bonus, people are much more satisfied with their sex lives now than in previous decades. This is great news for everyone who thought that sex would stop once you hit 70. Surveys were provided to over 1500 seventy year olds between 1971 and 2001(Reports online @British Medical Journal). For women, men, married, unmarried the frequency and satisfaction levels increased for sex across the board.

It is speculated that more sex later in life could be partially contributed to the advent of pharmaceutical drugs or societal willingness to discuss sexual encounters. In addition to the fact that there are so many tools available now from herbal supplements to sex toys we are sure to have every opportunity to keep things fun and interesting. Regardless of what exactly has spurred this increase the important thing to remember here when it comes to sex is that it doesn't matter what age you are most men and many women still want it!

Blast in to the Love Zone today for Better Sex More Often!!
