SPECIAL REPORT: Your Stress Free Holiday Shopping Solution

Love Zone, Seattle Weekly's pick for Best Neighborhood Sex Shop, " is having a sale from December 5th to the 20th that gives shoppers unheard of 20% discount on the purchase of Holiday Gift Cards.

Wouldn't it be great to wrap up just about all your holiday shopping at one time? Better yet, to find the perfect gift for those hard-to-shop-for people on your list? And better still pay 20% less than the gift's retail value?

Well it looks like we've found the perfect solution for you at **Love Zone**. Katrina, the owner of Love Zone, has just announced a Gift Certificate sale that lets you buy as many Love Zone Gift cards as you want, in any amount that you want, and still take 20% off your entire purchase of Gift Cards.

If this sounds too good to be true, hang on-- it gets better! Not only is Love Zone making incredible deals on their Gift Cards, but they've made them incredibly easy to purchase by giving you over two weeks to come to any of their 6 locations between December 5th and 20th, 2008. Love Zone Gift Cards purchased under this promotion can be redeemed after December 26th, 2008.

According to Love Zone's marketing director, " The greatest benefit is to the shopper: you get to give a gift with a higher perceived value and actually pay less for it." For instance, a \$100 gift card will only cost \$80 through this limited time promotion, a \$20 card will only cost \$16, and so on. This is ideal for economically-strapped shoppers looking for easy-to-find gifts in the "under \$20" price range. Clearly,

Love Zone's timely promotion gets a best pick from smart consumers.

Example:

The Gift Card: \$25

Your Price: \$20

When the person you gave the gift card returns to Love Zone they get to spend \$25!!!

Answers to your Frequently Asked Questions

Question: Does the "G" Spot really exist or is it a myth?

LZ Sexpert Mythbuster:

Yes the "G" Spot does exist.

The G-Spot is not a vaginal ecstasy button, but some women greatly enjoy stimulation to the G-Spot. For some women G-spot stimulation can lead to female ejaculation.

The G-spot has variously been described as a dime-sized, to half-dollar-sized raised area located about two-thirds of the way inside the vagina in the front wall of the vagina. If you are lying on your back with your toy inserted vaginally the curved tip should be curving up towards the belly button. Try different types of touch, vibration, and pressure on the G-spot to see what is most enjoyable.

The range of sensations that have been documented about G-spot play has been anything from pleasure to indifference. The important thing to keep in mind is that the more you play the better you will get at hitting the right spot for you.

For those of you interested in G-spot pleasure try one of our top selling G-Spot Vibrators like Lucid Dreams or Sue Johanson's Royal Princess. There are even fantastic educational books(*SuperSex*) and DVD's(*Nina Hartley's Guide to the G-spot*) that can show you how to explore the G-Spot.
